

Hi,

I'm a recent graduate from the University of York with an MSc in Engineering Management, looking to start my career as a Graduate Project Manager. I saw the job post on LinkedIn and thought I'd reach out to you directly!

Here are reasons that make me a great fit for the role:

- I bring over 2 years of experience in data analysis and business transformation—at TCS, I improved reporting cycle time by 30% and data accuracy by 25% through automation.
- My ability to think critically and from first principles is reflected in my AI-driven education dissertation, where I conducted SWOT and value chain analyses across institutions.
- I've demonstrated strong execution in fast-paced environments, leading QA for 500+ code profiles and improving delivery timelines by 18% through agile workshops.
- I thrive in collaborative settings—managing shifts at McDonald's UK helped me boost operational efficiency by 15% and audit readiness by 20% through real-time systems and team coordination.
- I'm proficient in tools like SQL, JIRA, Power BI, and Python, and always eager to learn and iterate rapidly.

Please find my CV attached below. I look forward to hearing from you.

Best wishes,  
Prajwal Lawankar
