## SUMMARY

MSc Engineering Management graduate with a strong foundation in technology, engineering, and data analysis, equipped to tackle complex engineering problems and deliver innovative solutions. With over two years of experience in project management and client-focused roles, I bring proven skills in problem-solving, data-driven decision-making, and collaboration within dynamic, fast-paced environments. Highly adaptable and eager to contribute to Goldman Sachs' mission of pushing digital and financial innovation.

---

## KEY EXPERTISE

Engineering Problem Solving | Data Analysis | Innovation Management | Project Management | Risk Management | Strategic Thinking | Product Development | Team Collaboration | Communication Skills

---

## WORK EXPERIENCE

### Assistant Systems Engineer

Oct 2021 – Jul 2023

*(Tata Consultancy Services, India)*

- Led strategic integration efforts for the Sony-ZEE merger project as the Branding SME, supporting seamless alignment between engineering requirements and client expectations.
- Played a critical role in the ABN AMRO Bank project as a Mainframe Developer, where I focused on solving high-priority technical challenges and ensuring optimal performance in a regulated financial environment.
- Analyzed investment patterns and debugged system errors as an Investment Risk and Change Tester, supporting the bank's decision-making processes through precise data analysis and risk assessment.
- Developed and implemented technical solutions while collaborating with cross-functional teams, demonstrating a high level of adaptability in fast-paced project environments.

### Event Organiser

Sep 2018 – Oct 2018

*(IEEE Techfest 2018, India)*

- Organized the Gesture Bots technical event, overseeing risk mitigation strategies and ensuring event standards were met for quality and compliance.
  - Managed resources, time slots, and budget constraints effectively to ensure successful project completion while adhering to compliance requirements.
  - Coached and directed team members on the event's operational guidelines, contributing to the event's high recognition for efficiency and effective risk management.
- 

## EDUCATION

### MSc (Engineering Management) – 2:1

University of York | 2023 – 2024

### B.E. (Electronics and Telecommunication Engineering) – 2:1

Ramrao Adik Institute of Technology | 2017 – 2021

CGPA: 7.38/10 (equivalent UK classification 2:1)

---

## PROJECTS

- **AI in Education: Future of Learning** – Focused on leveraging AI for innovative learning solutions, enhancing my skills in data-driven product development.
  - **Branding SME for Sony-ZEE Merger**– Managed branding and strategic integration efforts to ensure alignment with business objectives and customer satisfaction.
  - **Mainframe Developer for ABN AMRO Bank** – Worked on high-impact solutions for a banking client, contributing to risk management and product stability in a regulated environment.
- 

## CERTIFICATIONS

**Leading and Innovation** | Project Management Institute (PMI) 2023

**Google's Crash Course on Python** | Coursera 2020

---

## SKILLS

Python | Data Analysis | Project Management | Strategic Thinking | Problem Solving | Risk Management | Team Collaboration | MS Office Suite | Communication | Adaptability | Multilingual
